ABOUT SELDRAM
SUPPLIES

From humble beginnings to one of the UK’s leading family-owned, independent janitorial and cleaning wholesalers.

1978

Robert Mardle first started Seldram in London Victoria.

1989

Oxford City Supplies was established by Robert Mardle.

2007

Thomas Mardle purchased the business from his father, Robert Mardle.

2012

Ben Mardle purchase A1 Southern Services and joins the family business.

2016

Acquisition of Microtor.

2020

Achieved Carbon Neutral status.

2023

Acquisition of Krystal Hygiene.

2025

Expanded to 4 branches, delivering a wide range of products, backed up with our unique service and support offering:

CONSULT | DELIVER | SUPPORT

CUT THE COST OF CLEANING

At Seldram Supplies, we understand that controlling cleaning costs while maintaining high standards is a top priority.

That's why we take a strategic approach to reducing waste, optimising efficiency, and using high-quality products that deliver better results.

By implementing smarter cleaning solutions, we help businesses save time and money - without compromising on cleanliness or hygiene.

- Proven cost-saving strategies tailored to cleaning operations.
- Smarter cleaning solutions that enhance efficiency and reduce waste.
- High-quality, long-lasting products that deliver better results.
- Industry-leading technology to streamline procurement & stock control.
- Reliable next-day delivery to ensure uninterrupted cleaning operations.

WHAT DRIVES CLEANING COSTS?

- Labour Costs – Work Smarter, Not Harder
- Smart Purchasing: Save More by Spending Wisely
- Machinery & Automation: The Hidden Cost-Saving Hero

PRODUCT OPTIMISATION & WASTE REDUCTION

- Dilution & Refills: Cut Costs & Waste
- Range Rationalisation: Simplify & Save
- Reuse & Longevity

TECHNOLOGY & PROCESS EFFICIENCY

- Smart Ordering & Stock Control
- Site-Level Cost Control & Budgeting
- Smarter Client Invoicing & Delivery Tracking

SUSTAINABLE SOLUTIONS

More than just cleaning products, we're driving sustainable change with a focus on people, planet, and profit.

At Seldram Supplies, we go beyond simply supplying cleaning products—we redefine sustainable solutions.

As a family-owned business, we see ourselves as custodians of the present, working to ensure a cleaner, greener future for the next generation.

That's why we focus on People, Planet, and Profit, creating a business model that delivers real value for both our customers and the environment.

Through our buying power and expert consultants across the Seldram Group, we provide high-quality products at competitive prices, tailored to meet your specific needs.

PEOPLE

We invest in our team by:

- Being a **Living Wage Employer**
- Being a **Period-Positive Workplace**
- Prioritising **ongoing training & development**
- Encouraging **volunteering days** for community impact
- Ensuring **employee voices are heard** within the organisation

PLANET

We put the planet first and empower our customers to do the same. Our sustainability initiatives include:

- **Carbon Neutral since 2020**
- **NCZ Gold Certified.**
- Expanding our **fleet of electric cars and vans**
- **Developing a new supply chain audit system** based on sustainability.

PROFIT

We are a business, but we believe in **profit with purpose.**

We reinvest **1% back** and use our profit to benefit the community.

These initiatives have led to **hundreds of thousands of pounds** of social value being generated in our area.

NORTHWOOD

Sustainable Washroom Solutions

Northwood is a group of associated companies that provide the **manufacturing, supply and transportation of high-quality** paper hygiene and wiping products.

Northwood companies are involved at every step in the supply chain, offering an end-to-end service so we can take a fully circular approach to sustainability.

Warehousing & distribution services for waste paper, parent reels and finished products.

Converting & supplying professional paper hygiene products to the away from home market.

Sale & procurement of both recycled & pure pulp parent reels.

Manufacturing various grades of tissue & towel parent reels recycled waste paper.

Collection, recovery & processing of waste paper.

Stylish and contemporary dispensing solutions suitable for Front of House and Back of House.

Reduce Waste

- Zero waste dispensing options.
- Controlled dispensing reduces overuse.
- Lockable dispensers stopping pilferage and vandalism.

Save Time & Money

- High capacity dispensers with constant availability.
- Hard wearing dispensers.
- Quick and easy to refill.

Improve Hygiene

- Contactless dispensing options.
- BioKleen™ treated contact areas.
- Enclosed paper – protection from the washroom environment.

Sustainability

- All Raphael Roll Towel, Toilet Tissue and Soaps are made in the UK.
- All recycled toilet tissue is made from sorted office waste sourced within the UK.
- All products in the Raphael range carry the FSC® certificate, a globally recognised scheme that gives assurances products are either genuinely reclaimed or sourced from responsibly managed forests.

VERSATWIN™ TOILET ROLL SOLUTIONS

- COMPACT IN SIZE, THE VERSATWIN™ TOILET TISSUE DISPENSER MAXIMISES AVAILABLE SPACE IN THE WASHROOM.
- BOTH DURABLE AND EFFICIENT, THIS DISPENSER IS A GREAT ALL ROUND PERFORMER AND EXCEEDS THE DEMANDS OF MOST WASHROOM ENVIRONMENTS.
- ONLY ONE ROLL IS USED AT A TIME, DELIVERING REDUCED WASTE AND COST SAVING BENEFITS.

KATRIN®

MOVING TOWARDS A WORLD GUIDED BY CIRCULAR ECONOMY.

Metsä Group is a
forerunner in
**sustainable
bioeconomy** which
produces recyclable
products from northern
wood for the needs of
the **world's population.**

Nothing is wasted.

25%

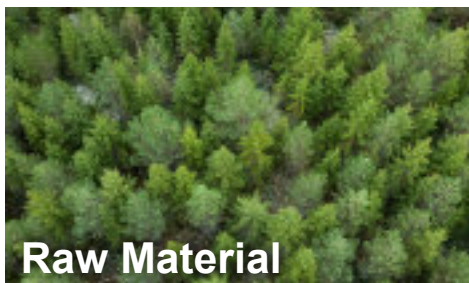

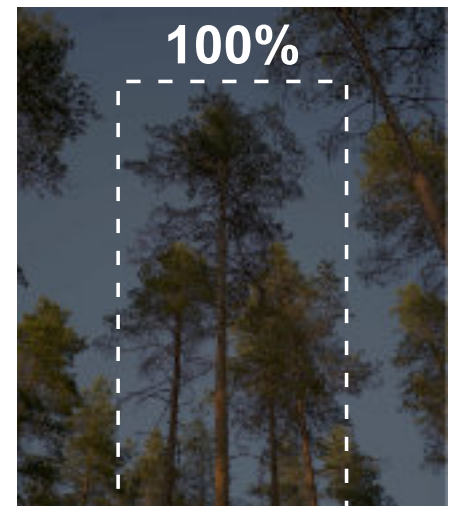

Used for pulp, cardboard, cooking paper, tissue and new bio products.

60%

Used as timber and other building materials

15%

Bark, branches and peaks used for bioenergy production.

Raw Material

- From sustainably managed forests that grow more than they are used and preserve biodiversity.
- Fully traceable.
- Part of efficient wood use and bioeconomy.
- Good availability with sustainable forest management.

Production

- Lower CO2 footprint in fresh fibre rolls (MT sample on average 20% lower).
- ~90% material efficiency, low amount of waste.
- ~99% less waste to landfill.

Use

- High quality for hygiene and food contact use.
- Pleasant and efficient to use: soft and absorbent.

KATRIN V-FOLD (ZIG ZAG) HAND TOWELS

- QUALITY INTERLEAVED (ZIG ZAG, V-FOLD) HAND TOWELS
- SELF PRESENTING TOWELS, ONE SHEET AT A TIME WHICH IS HYGIENIC AND HELPS TO REDUCE OVER CONSUMPTION

We use tissue paper made of new fibres

Paper produced with fresh fibres is cleaner than paper made with recycled fibres because there is no risk of any remaining contamination from previous use.

The tissue paper also has longer and stronger fibres making them better at absorbing fluid, while being softer and gentler on skin.

Choosing tissue paper made of new fibres can be an excellent way to maintain the highest possible level of hygiene.

Think ahead.

Minimise your environmental impact with the Tork sustainable washroom

A smart, sustainable and efficient range that improves hygiene and saves time.

From continuous and multifold paper towels to rolls of paper towels, there's many options to provide a great restroom experience at your facility.

Not only that, but our products are created with sustainability in mind, caring about your business as well as the planet.

Tork sustainability focus areas

Tork is committed to developing innovative and sustainable hygiene solutions that are better for business, people and the planet.

Materials & packaging

Responsible sourcing and increased use of renewable, recycled and natural content.

Use & waste

Reducing waste through reduced consumption and circular solutions.

Carbon

Lowering carbon impact throughout the total life cycle of Tork products and services.

Hygiene for all

We are dedicated to raising hygiene standards for the majority of users.

A 360° approach to environment

We look at the entire life cycle of a product and service from responsible sourcing to end of life.

- Life cycle assessment (LCA) is used to calculate the environmental footprint of products, processes or services throughout the entire life cycle.
- Essity has been working with LCA since early 1990s.
- We use this life cycle approach to improve every aspect of our product performance.
- The life cycle approach helps to identify and select the best solutions for customers.
- It also helps to evaluate claims and prevent greenwashing.

TORK OPTISERVE® CORELESS TOILET PAPER SYSTEMS

- HIGH CAPACITY SYSTEM CAN SERVE UP TO 145/290 GUESTS.

ECONATURAL

THE REAL CIRCULAR SYSTEM

THE PLANET'S RESOURCES AREN'T INFINITE.

Continuing to make things with the linear “take, produce, consume and throw away” approach puts considerable strain on the environment and on everyone's future.

THE SECOND LIFE OF BEVERAGE CARTONS

The solution exists and it's called the Circular Economy: a new economic model in which nothing is wasted and everything is transformed into a new, eco-certified resource.

Lucart Professional gives new life to all the components in beverage cartons, using the cellulose fibres they contain to produce Fiberpack®, from which it makes paper, while the aluminium and polyethylene are used to produce Al.Pe.®, the raw material from which it makes dispensers, now with a new patented design.

EcoNatural is the hygiene solution of the future, giving your customers the quality, and the planet the respect they deserve.

A concrete example of how the beverage cartons we use every day can be recycled through a special process and transformed from waste into a new resource.

 **108**

Beverage cartons recycled to produce one dispenser*

New patented design

Fully recyclable and certified

* EcoNatural Flow Folded Hand Towel dispenser, considering 1L beverage cartons.

AUTOCUT ROLL TOWEL DISPENSERS

- WITH NO NEED TO TOUCH THE DISPENSER, TOWELS ARE DISPENSED ONE AT A TIME, REVEALING A NEW SHEET FOR THE NEXT USER.
- CONTROLLED SHEET LENGTH REDUCES OVERUSE.
- AVAILABLE AS PART OF THE IDENTITY AND THE NEW ECONATURAL FLOW RANGES.

EVOLUTION™

THE REVOLUTION BEGINS NOW

The new range of EVSOLUTION dispensers reflects the Carrara Group's commitment to provide its clients constantly with the most recent technological innovations respecting the environment and the community.

The range combines aesthetics with practicality and efficiency to be perfectly integrated with any washroom area and more.

Created by caring for what's next and based on our long history, the EVSOLUTION range offers a contemporary array of advanced hygienic solutions.

These innovative systems help to reduce waste and maintenance frequency, optimise the dispensing of coreless toilet paper, soap and paper towels, and maximise the user experience.

Provided with the most innovative mechanisms (including the touchless option), the dispensers are easy to use and refill and the ideal solutions for users that are looking for:

- high level of hygiene
- cost efficiency
- sustainability

EVOLUTION HAND ROLL TOWELS & DISPENSERS

Washroom Hygiene.

Although most people don't like to scrub, scour, and mop, I think we can all agree that cleaning is important/, especially when it comes to washrooms. Not only is a clean and sanitised washroom important for our comfort and peace of mind, but it also helps us stay healthy. Ideally washrooms should be cleaned as regularly as possible.

If you are unsure as to how to clean and sanitise your washroom properly, then do not hesitate to contact us. We have the knowledge and products to ensure that your washroom is properly cleaned, sanitised, and ready to go.

Call us and request a copy of our Washroom Cleaning Guide.

TOP TIP Daily and periodic deep cleaning products are essential in order to keep washrooms hygienic and fresh.

CODE

Cotton

The most popular type of material used for mops, cotton is renowned for its versatility, suitable for use on different hard surfaces and ideal for cleaning up different types of messes and contamination. Cotton is also an absorbent material; due to its natural hollow fibres.

PY Cotton - A mixture of polyester and cotton provides excellent durability.

Twine Cotton - A thinner, more durable cotton yarn. Most effective for rough or uneven surfaces. Multifold Cotton - A combination yarn to create a hard wearing mop for heavy duty cleaning.

Microfibre

Commonly used for flat mops, microfibre is a synthetic material designed for superior micro-organism removal and a highly efficient cleaning experience.

Absorbent and lightweight, microfibre mops require very little water for optimal results, cutting water usage by as much as 90%, as well as minimal chemical use, removing dirt, dust and germs from surfaces and trapping them within the weave using only water.

SYRtex

A premium quality mop material designed by SYR, SYRtex are highly durable reusable mops, available in different weights and sizes to suit different environments and mopping requirements.

Made of a long-lasting polyester blended yarn that is 10 times stronger than cotton, SYRtex mops are fully absorbent from new to offer an effective cleaning performance, with a fast pick-up of dirt and dust and quick water release.

As they are so durable (launderable whilst still retaining their quality), these mops are both a cost effective and sustainable solution for daily mopping.

SYRSorb

One of SYR's exclusive mop materials, SYRSorb is a semi-disposable mopping solution designed to meet high standards of hygiene and sustainability.

Created from offcuts of synthetic, non-woven fibre materials used to make hygiene products, these lightweight and highly absorbent mops are non-linting and non-rotting.

SYRSorb is made from offcuts that previously would have been discarded as waste. SYRSorb works to reduce the volume of waste sent to landfill, doing our part for the planet whilst still ensuring an impeccable cleaning performance.

Catering Chemicals.

Cleanliness is a vital part of any catering business, and never more so than in the kitchen. Only by following commercial kitchen cleaning procedures can you maintain the highest level of hygiene.

In any commercial kitchen, canteen or catering environment, grease and dirt naturally build up over time, covering surfaces and cooking equipment. This not only presents health risks, but can be a fire hazard too. Save yourself time and effort in cleaning practices by starting out with premium commercial kitchen cleaning supplies.

Need help? Call us and request a copy of our Kitchen Cleaning Guide.
