

Carefree Eternum

Step 2 of your professional floor care system

Prestige floor protection

- High gloss floor polish
- Superior traffic resistance
- Reduced maintenance

High gloss floor polish

Carefree Eternum gives a high gloss finish offering floors a quality and professional appearance. It's diamond-like polish film enhances the natural beauty of floors whilst simultaneously giving long lasting protection. Extremely versatile, it's suitable to use on all floor types including vinyl, synthetic, linoleum, stone, sealed wood and cork floors.

Superior traffic resistance

The innovative triple polymer formulation gives superior resistance to daily wear. Carefree Eternum gives the 'hardest ever' polish film, out-performing competitor emulsions by more than 60 points as measured by König Hardness. It's superior resistance to traffic makes it the perfect choice for prestige or busy areas where ordinary emulsions fail.

Reduced maintenance

Carefree Eternum applies easily with even spread and no streaking creating a first time crystal perfect finish. The hard wearing, long lasting gloss finish gives excellent durability against daily scuffs, marks and dirt prolonging the floor's immaculate appearance. Reducing the need for intensive maintenance saves time and costly labour by as much as 50%.

Usage instructions

Each 5 litres polishes up to 500 m².

Step One: Prepare the floor

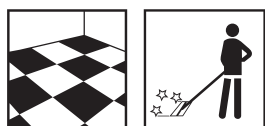

Prepare the floor by stripping with Carefree Speed Stripper (not suitable for wood floors) or Carefree stripper. Ensure slurry is removed and the floor is thoroughly clean and dry.

Step Two: Protect the floor

Leaving a six inch gap from the wall, apply a thin even coat of Carefree Eternum using a figure of 8 motion with a clean mop or applicator. Allow to dry thoroughly (approximately 30 minutes). Apply second and where necessary subsequent coats at 90° to the preceding coat. Allow each coat to fully dry before re-application. On final coat apply the polish up to the skirting board.

Step Three: Maintain the floor

Regularly maintain the floor by damp mopping, machine scrubbing or spray cleaning. The ideal maintenance product to use is Carefree Maintainer.

Carefree Eternum

Technical data

Appearance	Opaque, milky liquid	Dilution rates	Use neat
pH	8.5-9.0		

The above data is typical of normal production and should not be taken as a specification.

Product	Pack size	Cases per layer	Cases per pallet	Article code
Carefree Eternum	2 x 5 L	20	60	469000

Safe handling and storage information

Keep from freezing. Do not use at temperatures below 10°C.
