

Carefree® Stripper

Floor Stripper

Description

Powerful, alkaline stripper for removing polish and maintenance films from alkali-resistant hard floors.

Key properties

- High alkaline stripper
- Fast acting
- Low foaming

Benefits

- Quick and effective removal of floor polish emulsions from alkali-resistant hard floors such as PVC, vinyl, stone, etc.
- Powerful dissolution of heaviest build up as well as tough soil removal
- Low odour in use

Use instructions

Dose the product 1:20 into the water tank/bucket, apply the solution uniformly and allow to act 5 minutes to give sufficient contact time (do not allow the solution to dry). Then scrub the floor using a single disc equipped with a suitable pad, wet vacuum the soiled solution and rinse thoroughly 2 times with clean water. Allow the floor to dry completely before applying emulsion polish.

Important:

Take care when stripping linoleum floors use a 1:20 dilution rate and green pad. Immediately remove any solution splashes from alkali-sensitive surfaces (e.g. wooden baseboards, painted/varnished surfaces) with a wet cloth. Test material compatibility before use.

Technical data

Appearance: Clear Blue Liquid

pH value (neat): 13.5 - 14.0

pH value (in use): 12.0 - 13.6

S.G: 1.06

Viscosity: Water thin

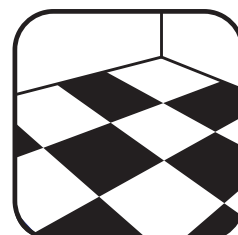

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Store in original closed containers away from extreme temperatures.

Keep from freezing. Do not use at temperatures below 10 ° C

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.
